- Clicking b with the grenade equipped allows you backspin the grenade towards you.. Some tips: - This game is all about how much damage you get off the person before its there turn.. To be honest, it is a just a fun game to waste some time if you bring your laptop to your dentist appointment waiting.. TL;DR: Just thought I would throw an idea to a developer of swf related shit, I am not begging for this, just a project for a dev to do if they are bored.. Possibly make tracers, and or trajectories of the mortar and RPG and grenades Do not know much about. [Mac Os Gratis Download](#)
